ACCOUNTABILITY

# PAR

## CALL A PAR

- Member missing or trapped
- Offensive to defensive
- Flashover or collapse
- Primary search all clear
- Fire under control
- At your set interval

## NO ANSWER

1. Call the unit by name
2. Ask its supervisor
3. Check last known location
4. Still missing: Mayday

ACCOUNTABILITY

# PAR

## A GOOD PAR

- Every unit, every member
- A head count, not “OK”
- Location and assignment
- Logged with the time

## KEEP IT WORKING

- Supervisors track their crews
- PAR when a task is done
- Record it on the ICS 214

COMMAND

# Mayday

## FIRST 60 SECONDS

1. Acknowledge the Mayday
2. Declare emergency traffic
3. Get LUNAR, repeat it back
4. Send the RIC
5. Keep command

## LUNAR

**L** Location

**U** Unit

**N** Name

**A** Assignment and air

**R** Resources needed

FIREWORKS

COMMAND

# Mayday

## NEXT MINUTES

- PAR on all other units
- Request another alarm and EMS
- Name a rescue officer
- Assign a new RIC

## CLOSE IT OUT

1. Confirm the member is out
2. Run a PAR again
3. “All clear, resume traffic”

FIREFIGHTER

# Mayday

## CALL IT IF YOU ARE

- Lost or disoriented
- Trapped or entangled
- Fallen through a floor
- Low on air, no exit
- Hurt and can’t get out

## THEN

1. “Mayday” three times
2. Give LUNAR
3. Activate your PASS
4. Control your breathing

FIREWORKS

FIREFIGHTER

# Mayday

## WHILE YOU WAIT

- Light on, aimed up
- Find a wall or window
- Tap with your tool
- Answer Command

## REMEMBER

- Call early, while you have air
- Calling it is never wrong

PROGRESS REPORTS

# Benchmarks

## REPORT TO COMMAND

1. 360 complete
2. Command established
3. Primary search all clear
4. Water on fire
5. Knockdown
6. Under control

## CAN REPORT

**C** Conditions

**A** Actions

**N** Needs

PROGRESS REPORTS

# Benchmarks

## TELL COMMAND NOW

- Can’t complete the assignment
- Lost water
- Conditions getting worse
- Task done, ready for more

## ALSO CALL

- Secondary all clear
- Utilities controlled
- Extension checked

COMMAND

# Transfer

## FACE TO FACE

1. Meet the current IC
2. Use the ICS 201
3. Brief the six below
4. Announce the new IC and time

## BRIEF

- Situation
- Assignments
- Last PAR
- Hazards
- Plan
- Resources coming

COMMAND

# Transfer

## OUTGOING IC

- Update the ICS 201
- Hand over the board
- Stay for reassignment

## INCOMING IC

- Size up first
- Repeat the plan back
- Set the next PAR

CREW CARE

# Rehab

## SEND TO REHAB

- After hard, sustained work
- Heat or cold stress signs
- Whole companies together
- At your SOG's trigger

## IN REHAB

- Check in with tags
- Vitals and appearance
- Rest, fluids, food
- Cool or warm

CREW CARE

# Rehab

## RETURN TO WORK

1. Medical OK first
2. Whole crew fit
3. SCBA refilled
4. Report to Staging

## SET UP

- Name a rehab manager
- Upwind, out of smoke
- EMS standing by

ARRIVING COMPANY

# Mutual Aid

## ON ARRIVAL

1. Respond when requested
2. Stage per the host plan
3. Check in with Command
4. Report your crew count

## GET FROM COMMAND

- Assignment and supervisor
- Radio channel
- Hazards
- Mayday and evac signals

ARRIVING COMPANY

# Mutual Aid

## STAY ACCOUNTABLE

- Tags per host system
- Answer every PAR
- One supervisor
- No freelancing

## CHECKING OUT

1. Wait for release
2. Collect your tags
3. Tell Command you're leaving
